ABOUT US

Our company established in 2001 and since established our Company serving as continuous in the construction field, until now in Iraq, Tajikistan, Turkmenistan, Guinee, Libya and Turkey has undertaken in various regions and major projects completed with success thus gained an extensive experience in the construction field. Currently we are working in 3 continents with turnover is 150 million USD yearly turnover.

In our world, which is growing in recent years and environmental awareness aiming to leave a clean environment to future generations, Turkey is being closely affected and as a result, our local government attaches great importance to environmental infrastructure projects and give priority to construction work on these projects.

Our company has carried out these projects continuously with its technical staff having knowledge and application experience especially in technical structure issues.

Our company closely follows new construction methods based on the latest technological developments in the field of construction and strives to make the necessary improvements both in the organizational structure and in the machinery equipment park to put them into practice in the works undertaken.

ENDU YAPI has reached the financial and technical power to undertake and successfully complete other superstructure and infrastructure works in the construction field in addition to the works under its commitment.

In our age, the world's developing technology with the superstructure, infrastructure, demand, ideas and needs of countries to create new projects. To respond to the structural projects and needs that regulate the people social lives of the countries. In the construction of these needs is to do without damaging the nature and environmental order.

We offer structural services and commitments in line with the standards and specifications required by the building standards of the world and the building conditions of that country.

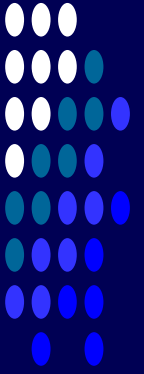

OUR VISION

Aesthetic and functional aspects of the best solutions by creating different designs, without compromising quality to exceed customer expectations, to provide unconditional satisfaction of our customers and to provide satisfaction and satisfaction of our employees to lead the industry ...

OUR MISSION

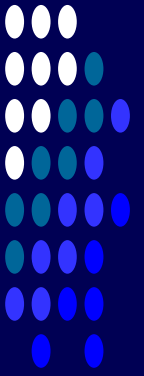

To maximize customer satisfaction by using high standard, quality service, quality materials, to respect the time and rights of our customers, to fulfill our responsibilities to humanity, environment and universal values ...
